Press release

Priell has completed a transaction with **Forgestik Inc.**,
the most important growing SAP Business One solution partner in Canada

Forgestik and Priell are finalizing the acquisition of Priell's SAP business One practice and the transfer of its client base to Forgestik. This acquisition will ensure that Forgestik be positioned as **the most important growing SAP Business One solution partner in Canada**.

"This integration guarantees the success for all our clients, now with our team of more than twenty-five **certified SAP Business One consultants, specializing in implementation, SDK development and solution counselling**, which results in over ten years of experience and thousands of hours of consultation in the field. This expertise opens all dimensions of management needs (Food & Beverage vertical, manufacturing, distribution, project and service management) surrounding SAP Business One as well as the best third party products available.

I am very happy to find myself at the head of such a qualified team, where our focus on SAP Business One makes us the greatest experts in Canada. Our mandate always remains as strong: accompany our organization on the road to success. Forgestik has been helping companies integrate their business data for the past 20 years. Our specialization around SAP Business One allows us to today accompany you in the re-engineering of your processes; in the integration, the customization, the development, and the support of the SAP Business One integrated management solution" mentions Daniel Champoux, President of Forgestik Inc.

Concerning the advantages that his transferred clientele will receive, Mr. Geoff Bell, Director of Priell, also adds: "I am convinced that offering high quality distribution, and manufacturing solutions in conjunction with the additional resources will not only add value but also heighten the quality of the service that our SAP Business One clients now receive, to a point that has never been reached before. I am also honored to have been invited to the Forgestik group as the General Manager of the western division" adds Mr. Bell. Mr. Bell along with other key SAP Business One employees will join the Forgestik team and proudly represent them for the Western Canadian region in this new structure.

The amount of the transaction is kept private and will not be divulged.

About Forgestik

Forgestik Inc. is a private society that began its business practices in 1990, specializing in solution counseling, sales, integration, customization, SDK development and SAP Business One management solution support. Gold level SAP Business One partner, Forgestik has been the very first organization to sell SAP Business One in Quebec back in 2003, and positions itself as **the most important growing supplier and reseller of SAP Business One solutions in Canada with offices in Atlanta, Chicago, Montreal, Calgary and Vancouver.**
