AGENTIC GENERATIVE AI FOR BUSINESS

MYWAVE.ai   SAP Business One

Boost Productivity with Agentic GenAI No-Code Automation Platform

MyWave.ai is a cutting-edge Generative Artificial Intelligence (GenAI) platform designed to revolutionize digital processes. Leveraging Agentic AI, the platform operates as a true AI co-worker, performing tasks on behalf of users through a conversational AI user interface.

MyWave.ai simplifies processes, eliminates unnecessary steps, and ensures seamless data orchestration, transforming your operational and customer-facing workflows.

Seamlessly integrating with SAP Business One, ERPs, CRMs, and marketing tools, MyWave.ai auto-mates workflows and personalizes interactions, empowering your team to make data-driven decisions and improve customer interactions.

Improve operational efficiency through a no-code, conversational interface. Unlock the potential of intelligent automation and begin your AI journey to transform your operational and customer-facing processes.

HOW MYWAVE.AI WORKS?

From menu-based step-by-step processes to instant AI-driven results

Traditional ERP

Traditional ERP systems require users to follow complex, predefined steps and menus to achieve their goals. This often leads to lengthy workflows and significant manual input, making the process both time-consuming and error-prone.

VS.

AI Powered ERP with MyWave.ai

Users are guided through a conversational interface, expressing their needs in natural language. Leveraging LLM, the MyWave.ai interactive layer, integrated into the ERP system, interprets these requests and directly provides the results. This simplifies workflows, automates processes, and eliminates unnecessary steps.

CUTTING EDGE TECHNOLOGY

It's not about learning a new system, it's about having the system learn and adapt to you.

No Code Platform

MyWave.ai's no-code platform enables businesses to quickly implement and automate processes, driving efficiency and reducing the need for extensive coding expertise.

Connecting Everything, Everywhere!

MyWave.ai simplifies the integration and automation of your business processes and workflows by connecting various systems through its robust GenAI-powered Integration API and Dynamic Plugin–Integration Layer.

MEASURABLE RESULTS

8x
Faster Internal Workflows

Eliminate bottlenecks and get things done quicker. MyWave.ai optimizes processes, leading to significant reductions in task completion times.

41%+
Increase in Deployment Speed

Forget lengthy implementation cycles. MyWave.ai's no-code environment allows you to deploy new processes up to 41% faster vs. non Gen AI-Boosted ERP

80%+
Reduction in Manual Work and Errors

MyWave.ai automates repetitive tasks and streamlines workflows, empowering your team and minimizing the risk of human error.

WHY MYWAVE.AI?

Enhance Employee Productivity
Increase productivity tenfold with an intelligent and intuitive conversational interface that guides users through their daily tasks.

Enhanced Accuracy & Compliance
Ensure data accuracy, compliance, and security with audit trails, while guaranteeing process adherence.

Enhance Customer & Employee Experience
Offers a user-friendly interface and conversational interactions, making it easier and more pleasant to use.

Maximize ROI
Experience significant cost savings by reducing the time and resources needed for development and deployment.

Lower Training & Onboarding Costs
Use natural language commands for ERP processes, simplifying tasks and transforming user experience.

Protect Brand Trust & Reputation
Scale your operations knowing MyWave.ai has been tested for security and scalability by industry leaders.

CHOOSE THE RIGHT DEPLOYMENT FOR YOUR BUSINESS

Explore three flexible deployment options tailored to your business needs.

	Pre-Built Waves™	Custom Waves™	API Integration
Description	Pre-built Waves are ready-to-use processes that are configured specifically for SAP Business One standard processes.	Custom-built Waves™ tailored workflows built specifically to meet unique requirements.	Integration layer to connect various systems, including SAP and non-SAP ERPs, CRMs, and maketing tools and other systems of records.
Automation/ Features	Conversational expense recording, document generation, service call, and more.	Specific business processes that may not be covered by pre-built Waves.	Seamless integration enabling data exchange and workflow automation.
Best suited for	Rapid implementation, cost-effective, essential automations.	Maximum flexibility, highly personalized solutions, optimized performance for unique requirements.	Technology stack enhancement by connecting disparate systems for better insights and efficiency.
	Start quickly with essential GenAI features	Customize based on your specific needs	Focus on software integration
